Intimacy/stage falls Disclosure Information
Please look at this list prior to auditions.

There will be intimacy and intimate scenes in this production between all characters including: people in bed together with intense making out, kissing, groping, casual touching, lifting, dragging, carrying and pushing of bodies and falling. All intimacy and stage falls will be choreographed with the Director, a Stage Combat Director and Intimacy Coordinator. Much of the intimacy is integral to the plot of the play and specifically laid out in the script.

At auditions we will want to know your comfort levels and what you will be comfortable with. Be prepared to ask questions and fill out a form to help us with casting and choreography of intimacy and stage falls.
